Sustainability Compliance Report						
A. GENERAL PRINCIPLES						
A1. Strategy, Policy and Goals						
A1.1. The prioritised environmental, social and corporate governance (ESG) issues, risks and opportunities have been determined by the Company's Board of Directors.	X				Our Board of Directors has identified ESG material topics and the associated risks and opportunities. The material topics are published in our 2024 Sustainability Report. In 2024, the TCFD Report, which includes risk and opportunity analyses specific to SASA, was updated, and risks and opportunities related to climate change and water management were also included in the 2024 TSRS report.	https://www.sasa.com.tr/sustainability-sustainability-reports-hi-wwww.sasa.com.tr/Themes/sasa/assets/pdf-en/SASA-TCFD-Report-Entire-Facilities).pdf
A1.1. The ESG policies (Environmental Policy, Energy Policy, Human Rights and Employee Policy etc.) have been created and disclosed to the public by the Company's Board of Directors.	X				By decision of the Board of Directors, ESG-focused policies have been established, and procedures and guidelines for implementing these policies have been prepared. All our policies have been published in our 2024 Sustainability Report and on our website.	https://www.sasa.com.tr/sustainability-sustainability-reports-hi-wwww.sasa.com.tr/sustainability-esg-policies
A1.2. The short and long-term targets set within the scope of ESG policies have been disclosed to the public.	X				Our short- and long-term ESG targets, which we have set as part of our sustainability strategy, are included in our 2024 Sustainability Report . Progress towards these targets is assessed annually, and updates are made to targets that have reached their deadline. The targets are directly linked to 14 SDGs and indirectly linked to 3 SDGs.	https://www.sasa.com.tr/sustainability-sustainability-reports
A2. Implementation/Monitoring						
					The Sustainability Committee, responsible for the execution of the ESG Policy, was established on 13.12.2021. The Sustainability Committee carries out its activities in line with the charter	

<p>A2.1. The responsible committees and/or business units for the implementation of ESG policies and the senior officials related to ESG issues in the Company and their duties have been identified and disclosed to the public.</p>	X			<p>covering duties, structure and responsibilities. The Sustainability Committee, chaired by an Independent Board Member, consists of a total of 19 members from senior management and director levels. Those responsible and their duties are detailed in our 2024 Sustainability Report .</p>	<p>https://www.sasa.com.tr/investor-relations-corporate-governance-board-of-directors-co https://www.sasa.com.tr/Themes/sasa/assets/pdf-en/Internal-Regulation-of-Sustainability-Committee.pdf https://www.sasa.com.tr/sustainability-sustainability-reports</p>
<p>A2.1. The activities carried out within the scope of policies by the responsible committee and/or unit have been reported to the Board of Directors at least once a year.</p>	X			<p>The Sustainability Committee coordinates environmental and social activities and reports directly to the Board of Directors. Meeting four times throughout 2024, the committee made important decisions aimed at strengthening sustainability strategies and reported these to the Board of Directors. Our activities are reported to the Board of Directors every three months.</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports https://www.sasa.com.tr/investor-relations-investor-relations-reports-annual-reports</p>
<p>A2.2. In line with the ESG targets, the implementation and action plans have been formed and disclosed to the public.</p>	X			<p>Gap analysis and target planning for 2025-2030 were made to establish short and long-term goals and were shared in our 2024 Sustainability Report .</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports</p>
<p>A2.3. The Key ESG Performance Indicators (KPI) and the level of reaching these indicators have been disclosed to the public on yearly basis.</p>	X			<p>Our ESG KPIs are presented comparatively in the 2024 Sustainability Report for the years 2022-2023-2024. Our updated KPI data will be presented in our 2025 Sustainability Report.</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports</p>
<p>A2.4. The activities for improving the sustainability performance of the business processes or products and services have been disclosed to the public.</p>	X			<p>Starting with the R&D Department, all departments continue to carry out improvement activities related to the sustainability of products and services. Our R&D activities based on eco-innovation, our green chemistry approach, renewable energy feasibility studies aimed at emission reduction, energy efficiency projects, zero-waste practices, as well as innovative projects such as energy generation from waste and water recovery, are ongoing. Information on these projects has been disclosed in our 2024 Sustainability Report.</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports https://www.sasa.com.tr/sustainability-sustainable-product-stewardship-eco-innovation</p>
<p>A3. Reporting</p>					

<p>A3.1. The information about the sustainability performance, targets and actions have been given in annual reports of the Company an understandable, accurate and sufficient manner.</p>	X		<p>In 2025, our Sustainability Report covering the 2024 reporting period was published on our website. All information regarding our sustainability activities has been regularly disclosed in our Sustainability Reports published since 2020 and is further supported by additional disclosures such as TCFD, TSRS, and CDP reporting.</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports www.sasa.com.tr/sustainability-reports</p>
<p>A3.2. The information about activities which are related to the United Nations (UN) 2030 Sustainable Development Goals have been disclosed to the public.</p>	X		<p>Information about which of the United Nations (UN) 2030 Sustainable Development Goals our activities are related to is provided on our website and in the 2024 Sustainability Report .</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports www.sasa.com.tr/sustainability-our-strategy</p>
<p>A3.3. The lawsuits filed and/or concluded against the Company about ESG issues which are material in terms of ESG policies and/or will significantly affect the Company's activities, have been disclosed to the public.</p>			<p>In 2024, there are no lawsuits filed and/or concluded against SASA on ESG issues.</p>	
<p>A4. Verification</p>				
<p>A4.1. The Company's Key ESG Performance metrics have been verified by an independent third party and publicly disclosed.</p>	X		<p>Our carbon emissions for 2024 were calculated in accordance with the ISO 14064-1 standard , and our water footprint was calculated in accordance with the ISO 14046-1 standard , and the verification processes have been completed. The verification reports are included in the annexes of the 2024 Sustainability Report . All certificates related to the management systems we implement within the scope of sustainability are published on our website. In addition, we hold an Environmental Label issued by the Ministry of Environment, Urbanization, and Climate Change. The 2024 Sustainability Report was prepared in accordance with the GRI Standards and has been approved by GRI. An independent third-party assurance report has been obtained for the KPIs disclosed in the 2024 Sustainability Report , and this assurance report is included in the annexes of the 2024 Sustainability Report.</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports www.sasa.com.tr/sustainability-corporate-governance-iso-certification https://www.sasa.com.tr/sustainability-sustainable-product-stewardship-environmental-label</p>
<p>B. ENVIRONMENTAL PRINCIPLES</p>				
			<p>Our policies, practices and actions</p>	

<p>B1. The policies and practices, action plans, environmental management systems (known by the ISO 14001 standard) and programs have been disclosed.</p>	<p>X</p>		<p>in the field of environmental management are explained in the 2024 Sustainability Report . Our company has ISO 14001 Environmental management system certificate.</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports https://www.sasa.com.tr/sustainability-corporate-governance-iso-certification</p>
<p>B2. The environmental reports prepared to provide information on environmental management have been disclosed to the public which is including the scope, reporting period, reporting date and limitations about the reporting conditions.</p>	<p>X</p>		<p>The relevant principle code content is explained in our 2024 Sustainability Report .</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports</p>
<p>B4. The environmental targets within the scope of performance incentive systems which included in the rewarding criteria have been disclosed to the public on the basis of stakeholders (such as members of the Board of Directors, managers and employees).</p>	<p>X</p>		<p>Sustainability-related objectives have been integrated into the individual performance evaluation system. SASA applies a variable remuneration policy for all employees, including senior management, in which compensation is determined not only by financial and operational performance but also by long-term strategic and sustainability-related objectives. Within this framework, managers are indirectly assessed based on their contribution to environmental and climate-related targets. This topic is addressed in the 2025 CDP Climate Change and Water Security Report and the 2024 TSRS Report .</p>	<p>https://www.sasa.com.tr/content/files/2025%20CDP%20Corporate%20Questionnaire%20(Climat%20Change-Water%20Security).pdf https://www.sasa.com.tr/Themes/sasa/assets/pdf-en/SASA%202024%20Compliant%20Sustainability%20Report.pdf</p>
<p>B5. How the prioritised environmental issues have been integrated into business objectives and strategies has been disclosed.</p>	<p>X</p>		<p>In accordance with the requirements of ISO 14001 and relevant Environmental Legislation, we create annual targets and plans for the solution of issues involving environmental risks. We take care to design projects to minimize environmental risk during the design and engineering stages of our new investments. Our environmental projects are described in our 2024 Sustainability Report .</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports https://www.sasa.com.tr/sustainability-esg-policies</p>
<p>B7. The way of how environmental issues has been managed and integrated into business objectives and strategies throughout the Company's value chain, including the operational process, suppliers and customers has been disclosed.</p>	<p>X</p>		<p>We have a total of three policies, five procedures, and supplier approval form for our supplier relations, and the criteria are explained for how suppliers manage environmental issues . How suppliers and customers are integrated into strategies</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports https://www.sasa.com.tr/sustainability-esg-policies</p>

				throughout the value chain is explained in the 2024 Sustainability Report .	
B8. Whether the Company have been involved to environmental related organizations and non-governmental organizations' policy making processes and collaborations with these organizations has been disclosed.	X			Our company actively engages in collaborations with various chambers of industry, chemical associations, chambers of commerce, and professional organizations. As a signatory to the UNGC, SASA conducts regular reporting. In addition , in 2024, the Company participated in the Integrated Waste Management in the Circular Economy Training organized by the Ministry of Environment, Urbanization and Climate Change of the Republic of Türkiye; the Sectoral Value Chain Methodology Workshop under the Project for the Preparation of the National Action Plan on Sustainable Consumption and Production; the Integrated Pollution Prevention and Control (IPPC) Chemical Industry Workshop; and the Water Efficiency Mobilization: Industry and Water Meeting Program organized by the Ministry of Agriculture and Forestry of the Republic of Türkiye. Further details are disclosed in our 2024 Sustainability Report .	https://www.sasa.com.tr/sustainability-sustainability-reports
B9. In the light of environmental indicators (Greenhouse gas emissions (Scope-1 (Direct), Scope-2 (Energy indirect), Scope-3 (Other indirect), air quality, energy management, water and wastewater management, waste management, biodiversity impacts)), information on environmental impacts is periodically disclosed to the public in a comparable manner.	X			Our current and previous years' performance regarding all relevant environmental indicators has been comparatively published in the 2024 Sustainability Report .	https://www.sasa.com.tr/sustainability-sustainability-reports
B10. Details of the standard, protocol, methodology, and baseline year used to collect and calculate data has been disclosed.	X			The relevant principle code content is explained in the 2024 Sustainability Report .	https://www.sasa.com.tr/sustainability-sustainability-reports
B11. The increase or decrease in Company's environmental indicators as of the reporting year has been comparatively disclosed with previous years.	X			In the 2024 Sustainability Report , environmental indicators for 2022, 2023 and 2024 are presented comparatively.	https://www.sasa.com.tr/sustainability-sustainability-reports
				In order to measure our environmental impacts, our energy intensity, greenhouse gas intensity, hazardous waste	

<p>B12. The short and long-term targets for reducing the environmental impacts have been determined and the progress compared to previous years' targets has been disclosed.</p>	<p>X</p>		<p>footprint, water footprint, and wastewater footprint are calculated and published in the 2024 Sustainability Report . Annual targets for reducing our footprint in nature are determined and our progress is presented.</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports</p>
<p>B13. A strategy to combat the climate crisis has been created and the planned actions have been publicly disclosed.</p>	<p>X</p>		<p>Our efforts related to the development and implementation of our climate change mitigation strategy and action plans are ongoing. Our strategy and related actions are described in detail in the 2024 Sustainability Report , the 2025 CDP Climate Change and Water Security Report, and the 2024 TCFD Report.</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports www.sasa.com.tr/content/files/2025%20CDP%20Corporate%20Questionnaire%20(Climat%20Change-Water%20Security).pdf /www.sasa.com.tr/Themes/sasa/assets/pdf-en/SASA-TCFD-Report-Entire-Facilities).pdf</p>
<p>B14. The programs/procedures to prevent or minimize the potential negative impact of products and/or services on the environment have been established and disclosed.</p>	<p>X</p>		<p>All programs or procedures aimed at preventing or minimizing the potential negative impact of the products and/or services we offer are described in the 2024 Sustainability Report .</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports</p>
<p>B14. The actions to reduce greenhouse gas emissions of third parties (suppliers, subcontractors, dealers, etc.) have been carried out and disclosed.</p>	<p>X</p>		<p>SASA continues to strengthen carbon management practices across its supply chain in order to mitigate the impacts of third parties in this area. SASA has requested information on emissions and mitigation measures from approximately 80% of its contracted logistics service providers and has obtained company-specific emissions calculation data from these firms . In addition, the environmental practices of existing business partners have been reviewed, and opportunities for collaboration with new partners capable of meeting environmental criteria have been evaluated. The actions taken and ongoing efforts in this regard are disclosed in the 2024 Sustainability Report .</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports</p>
<p>B15. The environmental benefits/gains and cost savings of initiatives/projects that aims reducing environmental impacts have been disclosed.</p>	<p>X</p>		<p>The relevant policy code content is explained in the 2024 Sustainability Report and the 2025 CDP Climate Change and Water Security Report.</p>	<p>https://www.sasa.com.tr/sustainability-sustainability-reports www.sasa.com.tr/content/files/2025%20CDP%20Corporate%20Questionnaire%20(Climat%20Change-Water%20Security).pdf</p>
			<p>The relevant principle code content is explained</p>	

B16. The data related to energy consumption (natural gas, diesel, gasoline, LPG, coal, electricity, heating, cooling, etc.) has been disclosed as Scope-1 and Scope-2.	X			in the 2024 Sustainability Report .	https://www.sasa.com.tr/sustainability-sustainability-reports
B17. The information related to production of electricity, heat, steam and cooling as of the reporting year has been disclosed.	X			The relevant principle code content is explained in the 2024 Sustainability Report .	https://www.sasa.com.tr/sustainability-sustainability-reports
B18. The studies related to increase the use of renewable energy and transition to zero/low carbon electricity have been conducted and disclosed.	X			In line with our energy management approach and low-carbon targets, the 16.4 MWp Solar Power Plant (SPP) installed at the Adana facility in 2024 has continued to generate electricity, while the 45.7 MWp ground-mounted SPP project constructed in Gaziantep was commissioned in March 2025. With these two investments, approximately 10% of SASA's electricity consumption is supplied from renewable energy sources. Further details are disclosed in our 2024 Sustainability Report .	https://www.sasa.com.tr/sustainability-sustainability-reports
B19. The renewable energy production and usage data has been publicly disclosed.	X			Relevant information was shared with the public in the KPI tables in the 2024 Sustainability Report .	https://www.sasa.com.tr/sustainability-sustainability-reports
B20. The Company conducted projects about energy efficiency and the amount of reduction on energy consumption and emission achieved through these projects have been disclosed.	X			The projects we have undertaken and related quantitative information are provided in the 2024 Sustainability Report .	https://www.sasa.com.tr/sustainability-sustainability-reports
B21. The water consumption, the amount, procedures and sources of recycled and discharged water from underground or above ground (if any), have been disclosed.	X			The relevant principle code content is explained in the 2024 Sustainability Report .	https://www.sasa.com.tr/sustainability-sustainability-reports
B22. The information related to whether Company's operations or activities are included in any carbon pricing system (Emissions Trading System, Cap & Trade or Carbon Tax).			X	SASA is not yet involved in any carbon pricing system (Emissions Trading System, Cap & Trade or Carbon Tax). However, preliminary preparations were made by calculating the carbon internal price in the CDP Climate Change and Water Security Report published by SASA in 2025.	https://www.sasa.com.tr/content/files/2025%20CDP%20Corporate%20Questionnaire%20(Climat%20Change-Water%20Security).pdf
B23. The information related to accumulated or purchased carbon credits within the reporting period has been disclosed.			X	There were no carbon credits accumulated or purchased during the reporting period. However, within the scope of international collaborations, SASA obtained approximately 9,409.21 VCU Carbon Offset Certificates in 2024 for relevant products, in line with	https://www.sasa.com.tr/sustainability-sustainability-reports

				sustainability requirements imposed by supply chain and logistics stakeholders. Further details are disclosed in our 2024 Sustainability Report .	
B24. If carbon pricing is applied within the Company, the details have been disclosed.			X	There is no carbon pricing practice among the facilities at SASA or among the industrial companies within Erdemöglu Holding.	
B25. The platforms where the Company discloses its environmental information have been disclosed.	X			SASA's corporate website and Sustainability Reports provide information on all mandatory and voluntary platforms where environmental information is disclosed.	https://www.sasa.com.tr/sustainability-sustainability-reports
C. SOCIAL PRINCIPLES					
C1. Human Rights and Employee Rights					
C1.1. The Institutional Human Rights and Employee Rights Policy has been established in the ligh of the Universal Declaration of Human Rights, ILO Conventions ratified by Turkey and other relevant legislation. The policy and the officals that responsible for the implementation of it have been determined and disclosed.	X			We have a Corporate Human Rights Policy, and the roles and responsibilities regarding the policy and its implementation are explained on our website.	https://www.sasa.com.tr/sustainability-esg-policies
C1.2. Considering the effects of supply and value chain, fair workforce, improvement of labor standards, women's employment and inclusion issues (gender, race , religion, language, marital status, ethnic identity, sexual orientation, gender identity, family responsibilities, union activities, political opinion, disability, social and cultural differences, etc., such as non-discrimination) are included in its policy on employee rights.	X			SASA has Sustainability, Occupational Health and Safety, Corporate Communication/ Complaint/ Suggestion, Privacy, Human Rights, Human Resources, Social Responsibility, Supplier Diversity, Community Relations , Confidentiality, Supplier Code of Conduct, Corporate Risk Management, Diversity Policies. In line with these policies, all necessary steps are taken regarding equality of opportunity in recruitment processes, fair workforce, improvement of working standards, women's employment and inclusion, taking into account supply and value chain effects.	https://www.sasa.com.tr/sustainability-esg-policies
C1.3. The measures taken for the minority rights/equality of opportunity or the ones who are sensitive about certain economic, environmental, social factors (low income groups, women, etc.) along the supply chain have been disclosed.	X			Our relevant policies (Sustainability, Human Rights, Human Resources, Diversity, etc.) describe the measures taken throughout the value chain to ensure that minority rights/ equality of opportunity are observed.	https://www.sasa.com.tr/sustainability-esg-policies
C1.4. The developments regarding preventive and corrective practices against discrimination, inequality, human rights violations, forced and child labor have been disclosed.	X			Relevant information was shared in the 2024 Sustainability Report.	https://www.sasa.com.tr/sustainability-sustainability-reports

C1.5. Investments in employees (education, development policies), compensation, fringe benefits, right to unionize, work/life balance solutions and talent management are included in the employee rights policy.	X			Relevant information was shared in the 2024 Sustainability Report.	https://www.sasa.com.tr/sustainability-sustainability-reports
C1.5. The mechanism for employee complaints and resolution of disputes have been established and related solution processes have been determined.	X			Relevant information was shared in the 2024 Sustainability Report and KPI tables	https://www.sasa.com.tr/sustainability-sustainability-reports
C1.5. The activities carried out within the reporting period which related to ensure employee satisfaction have been disclosed.	X			Relevant information was shared in the 2024 Sustainability Report and KPI tables	https://www.sasa.com.tr/sustainability-sustainability-reports
C1.6. The occupational health and safety policies have been established and disclosed.	X			Our Occupational Health and Safety Policy is available on our website.	https://www.sasa.com.tr/sustainability-esg-policies
C1.6. The measures taken for protecting health, preventing occupational accidents and related statistics have been disclosed.	X			The measures taken and accident statistics are explained in the 2024 Sustainability Report and KPI tables.	https://www.sasa.com.tr/sustainability-sustainability-reports
C1.7. The personal data protection and data security policies have been established and disclosed.	X			Personal data protection and data security policies are available on our website.	https://www.sasa.com.tr/sustainability-esg-policies
C1.8. The ethics policy have been established and disclosed.	X			Our SASA Business Ethics Rules and Policies are available on our website.	https://www.sasa.com.tr/sustainability-esg-policies
C1.9. The studies related to social investment, social responsibility, finansal inclusivity and access to finance have been explained.	X			Relevant information was shared in the 2024 Sustainability Report.	https://www.sasa.com.tr/sustainability-sustainability-reports
C1.10. The informative meetings and training programs related to ESG policies and practices have been organized for employees.	X			Relevant information was shared in the 2024 Sustainability Report.	https://www.sasa.com.tr/sustainability-sustainability-reports
C2. Stakeholders, International Standards and Initiatives					
C2.1. The customer satisfaction policy regarding the management and resolution of customer complaints has been prepared and disclosed.	X			In our company, satisfaction analyzes are carried out through customer satisfaction surveys and solution-related studies are carried out. Relevant explanations are available under the heading "Customer Relations" in the 2024 Sustainability Report.	https://www.sasa.com.tr/sustainability-sustainability-reports
C2.2. The information about the communication with stakeholders (which stakeholder, subject and frequency) have been disclosed.	X			In the "Governance Structure" section of the 2024 Sustainability Report , the continuity and transparency of stakeholder communication, which stakeholders are contacted, for what purpose, on what subject and how often, and the progress made in sustainability activities are explained in detail.	https://www.sasa.com.tr/sustainability-sustainability-reports
C2.3. The international reporting standards that adopted in reporting have been explained.	X			The 2024 Sustainability Report was prepared in accordance with the GRI Standards – Comprehensive Option. In addition, the CDP questionnaires for water security and climate change were completed, and the 2024 TCFD Report was published.	https://www.sasa.com.tr/sustainability-sustainability-reports www.sasa.com.tr/content/files/2025%20CDP%20Corporate%20Questionnaire%20(Climat%20Change-Water%20Security).pdf /www.sasa.com.tr/Themes/sasa/assets/pdf-en/SASA-TCFD-Rep

C2.4. The principles adopted regarding sustainability, the signatory or member international organizations, committees and principles have been disclosed.	X		Work has begun through the Legal Department within the scope of membership in relevant organizations. In 2022, it became a signatory of the United Nations Global Compact (UNGC) and a member of the Turkish Chemical Industrialists Association.	https://www.sasa.com.tr/sustainability-corporate-governance-partnerships
C2.5. The improvements have been made and studies have been carried out in order to be included in the Borsa Istanbul sustainability indices and/or international index providers.	X		SASA has started to be traded in the Borsa Istanbul Sustainability Index. SASA included BIST SÜRDÜRÜLEBİLİRLİK / BIST 500 / BIST YILDIZ / BIST 30 / BIST TÜM / BIST 50 / BIST 100 / BIST ADANA / BIST SINAİ / BIST BANKA DIŞI LİKİT 10 / BIST KİMYA, PETROL, PLASTİK index.	https://www.kap.org.tr/tr/sirket-bilgileri/ozet/1068-sasa-polyester-sanayi-a-s
D. CORPORATE GOVERNANCE PRINCIPLES				
D1. The opinions of stakeholders have been sought in the determination of measures and strategies related to sustainability field.	X		Necessary measures are taken to comply with the principles regarding stakeholders and to strengthen communication with stakeholders, as stated in the Corporate Governance Principles. Stakeholders' opinions are consulted and a prioritization analysis is carried out in determining the measures and strategies in the field of sustainability. The results of the materiality analysis were shared in the 2024 Sustainability Report.	https://www.sasa.com.tr/sustainability-sustainability-reports
D2. The social responsibility projects, awareness activities and trainings have been carried out to raise awareness about sustainability and its importance.	X		The relevant principle code content is explained in the 2024 Sustainability Report .	https://www.sasa.com.tr/sustainability-sustainability-reports
